- Digital sign-in
- Case studies
- Training assessment forms
- Certificate of training

Project Management Workshop

The KT Project Management workshop provides project managers with a robust and proven project management methodology combined with the KT Clear Thinking skills needed to deliver real and measurable project results.

As the signature workshop of our project management training suite, this workshop prepares project managers to take on projects of any size and deliver them with confidence.

Training content

- **Module 1 Project Definition** (*ensure that the goals, scope, and resources of the project are clearly defined and understood and that parties, stakeholders agree to proceed*)
 - ✓ Known the context in which the project is to be set up
 - ✓ Lay out the desired end result, budget, and completion date in a simple, clear project statement
 - ✓ Develop objectives, identify associated constraints and how to measure progress
 - ✓ Identify criteria that will be used to guide decisions throughout the project and measure its success
 - ✓ Map the work of the project and organize it into a clear work breakdown structure
 - ✓ Identify the knowledge, skills, physical, and monetary resources needed to complete the work
 - ✓ Compare costs and benefits to help determine whether the project is viable
- **Module 2 Project planning** (*create a clear schedule and risk management plan to guide the project to success*)
 - ✓ Clarify work assignments and responsibilities according to the skills, experience and knowledge required
 - ✓ Sequence project tasks to ensure all of the work is done in a logical order, as well as look at the 'critical path' tasks
 - ✓ Lay out the project on a calendar and account for any time when resources are not available
 - ✓ Finalize all resource commitments and communicate key milestone dates
 - ✓ Perform a risk assessment on the plan, then design-in ways to manage the risks and appropriate treatment solutions
 - ✓ Identify opportunities and develop the project accordingly
 - ✓ Ensure final stakeholder buy-in of the finalized plan
